

# Oenorando® La ronde des vigneronns

② Easy 2 h 7.9km 214m -215m Loop

**Departure** : Domaine du Moulin, Gaillac

**Arrival** : Same place as the start

**Markings** : — PR

**Cities** : 1. Gaillac

At the gates of Gaillac, this very pleasant hike takes you through a rolling landscape structured by the undulating lines of vineyards. The unexpected beauty of the panorama from the heights adds an extra charm to the route.

Discover the nearby wineries along the trail:

Domaine du Moulin, Domaine Barreau, Domaine Laubarel, Domaine René Rieux, Mas des Combe.

## Description

1

From the parking lot, follow the small vineyard that descends towards the entrance gate of the estate. Turn left before reaching the gate to carefully cross the road. Ascend through the vineyards and turn left towards the large oak tree. Pass in front of the oak tree and continue to the next intersection. Enjoy the beautiful view of the Rhodes Castel and the Church of Notre Dame de Boissel. Turn right and follow this path to reach the D922 at the entrance to Boissel. At the road, turn left and take the small street below the main road.

2

In the center of the hamlet, turn right, cross the road, go around the wine cellars on the left, and follow the path that is shared with the "Vineyards and Castles" circuit. Ignore all right or left paths until the designated point.

3

Ignore the "Vineyards and Castles" route that continues to the right and instead, ascend the path to the left. This path runs along a ridge and offers a beautiful view of the vineyard. Continue straight, pass under the ruins of a farmhouse, and after approximately 350 meters, turn left and descend along the hedge to the D922.

4

Cross the road and continue on the path to "Mas d'Oustry".

5

Here, the path rejoins the "Vineyards and Castles" circuit. In the hamlet, turn left and descend to La Garriguette. Cross the small road and take the path leading to Rhodes. At the intersection with the road, in front of the cemetery, turn right, pass by the wine cellars, cross the small bridge over the stream, and after approximately 250 meters, turn left. At the intersection, take the right path that you followed earlier to return to the starting point.
