Description

1. Follow the meadow next to the community hall where the children's outdoor playground is located. At the end, turn left to pass between the houses. Take the dirt path that runs alongside the fields and climb into the woods. At the top, turn right. Continue straight on the path, then descend the road to the D15.

2. At the bottom, turn left and walk about a hundred meters, then turn left to take the path through the woods that will lead you to the footbridge. Cross the stream and climb back into the woods via the path. When you reach the D15, cross it and climb between the field and the undergrowth. Continue until you reach the road.

3. When you reach the road, walk along the edge for 200 meters and take the second path on the left, "Borie-courte". Go straight, pass the picnic tables, and descend the path to "Brandes". At the fork, turn left and immediately right towards Saint-Martin.

4. At the Saint-Martin de Casselvi church, cross the departmental road and leave the road that goes to the church. Continue straight and leave the road that goes to Fiac. After 500 meters, take "Le Planet" and continue to reach the Prône quarries.

5. Take the second path on the left to pass through the quarries and reach the road. Pass "En Salinier" and go left onto the pavement. Then take the grassy path and descend. Pass by a lake and continue until you reach the houses.

6. After the houses, reach the road, cross it, then descend to return to the starting point
